Women should inspire and empower other women, and people in general, to run their business and their personal life with love, compassion, and purpose to perpetuate JOY in the workplace and in all areas of our lives.

I mentor and coach women who are striving to find their place in the world and build businesses of their own so they can live a life of abundance and change the world.

My goal is to empower women to become tech entrepreneurs and minimize the gender gap in this industry.

Confessions From Serial Entrepreneurs

What does it take to start and run your own business or multiple businesses? How do you take control of your economic future? These entrepreneurs will tell you how they did it and inspire you to make the leap to financial independence! More than 9.1 million businesses in the United States are owned by women, employing nearly 7.9 million people, and generating $1.4 trillion in sales as of 2014.
