Survey of Existing Buildings and
Seismic Retrofit Plan

Release Date:  August 31, 2015

PROJECT DESCRIPTION

The City of West Hollywood invites proposals from qualified engineering consulting firms with experience and technical qualifications to respond to a Request for Proposal (RFP) to conduct a comprehensive survey of the City’s existing building stock to determine potentially vulnerable buildings during seismic activity. The consulting firm will also assist with developing a seismic retrofit program and ordinance for the City. The City is looking for a Consultant that specializes in seismic evaluations and retrofits as well as experience working with municipalities.

CONTEXT

West Hollywood is a densely populated city with an aging stock of high occupancy buildings. The performance of these older un-retrofitted buildings is of particular concern during a significant seismic event and may present a potential hazard to public safety. The City has elected to take a proactive approach to strengthen potentially vulnerable buildings by developing a seismic retrofit plan to increase life safety and minimize catastrophic building damage.

SCOPE OF WORK

The scope of work shall include the following:

1. A survey of all existing buildings within the City of West Hollywood is required. Information shall be collected by qualified Engineers experienced with the identification of potentially vulnerable buildings in the event of an earthquake. Survey information should include, but is not limited to, the following for all buildings:
   • Number of stories for each building
   • Number of units
   • Building square footage (approximate)
   • Year of construction. If not available, an estimate of era of construction.
   • Identification of building use (commercial, residential, mixed use, etc.)
• Photos for each building
• Information with regard to the primary construction material (i.e. wood, steel, concrete masonry units (CMU), concrete, etc.)
• Comments with regard to potential seismic vulnerabilities (soft story, non-ductile concrete, etc.)
• A list of addresses of potentially vulnerable buildings
• Any other information as required for determination of potential seismic vulnerabilities
• Information developed by the Consultant shall be delivered in a digital format (interactive website, app, etc.) that can be accessed by the City for future use and updated by the City on an ongoing basis.
• Information collected by the Consultant shall also be submitted as Esri shape files (.shp) or Esri File Geodatabase (.gdb) to be incorporated into the City's GIS system. Consultant to work with the City's Information Technology Division to guarantee compatibility of deliverable information with the City’s existing GIS. Information collected on GIS layer shall distinguish between residential and commercial structures and shall also include a method to identify potentially vulnerable buildings.

2. Upon completion of the survey, the Consultant will assist the City with developing a system for identifying the structures most vulnerable during a significant seismic event and provide a list of potentially vulnerable structures. The Consultant will also be asked to identify high occupant load structures that are potentially at risk in order to help determine which types of buildings would be included in the retrofit program.

3. The Consultant will work with the City to develop a framework for both mandatory and voluntary seismic retrofit program options. Retrofit program development will include recommendations for the following:

• Guidelines and documents to establish a preliminary structural evaluation for those buildings identified as potentially vulnerable
• Design guidelines for retrofit structures (FEMA, ASCE, etc)
• Options for levels of compliance
• Possible categorization of retrofits into tiers based on factors such as occupancy, building type and use among others.
• Assistance with specifying reasonable timeframes for retrofit completion

4. Provide a written seismic retrofit ordinance for the City of West Hollywood to be reviewed and finalized with assistance from the City Attorney and assist with presenting the ordinance to the City Council for adoption.

5. In addition to the items listed above, the Consultant will also be required to assist the City with the following:

If Consultant’s existing coverage includes a deductible or self-insured retention, the deductible or self-insured retention must be declared to the City. At that time the City shall review options with the Consultant, which may include reduction or elimination of the deductible or self-insured retention, substitution of other coverage, or other solutions.

If such change results in substantial additional cost to the Consultant, the City will negotiate additional compensation proportional to the increased benefit to City.

8.2.12. For purposes of applying insurance coverage only, this Agreement will be deemed to have been executed immediately upon any party hereto taking any steps that can be deemed to be in furtherance of or towards performance of this Agreement.

8.2.13. Consultant acknowledges and agrees that any actual or alleged failure on the part of City to inform Consultant of non-compliance with any insurance requirement in no way imposes any additional obligations on City nor does it waive any rights hereunder in this or any other regard.

8.2.14. Consultant will renew the required coverage annually as long as City, or its employees or agents face an exposure from operations of any type pursuant to this agreement. This obligation applies whether or not the agreement is canceled or terminated for any reason. Termination of this obligation is not effective until City executes a written statement to that effect.

8.2.15. Consultant shall provide proof that policies of insurance required herein expiring during the term of this Agreement have been renewed or replaced with other policies providing at least the same coverage. Proof that such coverage has been ordered shall be submitted prior to expiration. A coverage
binder or letter from Consultant’s insurance agent to this effect is acceptable. A certificate of insurance and/or additional insured endorsement as required in these specifications applicable to the renewing or new coverage must be provided to City within five days of the expiration of the coverages.

8.2.17. Requirements of specific coverage features or limits contained in this section are not intended as limitations on coverage, limits or other requirements nor as a waiver of any coverage normally provided by any given policy. Specific reference to a given coverage feature is for purposes of clarification only as it pertains to a given issue, and is not intended by any party or insured to be limiting or all-inclusive.

8.2.18. These insurance requirements are intended to be separate and distinct from any other provision in this agreement and are intended by the parties here to be interpreted as such.

8.2.19. The requirements in this Section supersede all other sections and provisions of this Agreement to the extent that any other section or provision conflicts with or impairs the provisions of this Section.

8.2.20. Consultant agrees to be responsible for ensuring that no contract used by any party involved in any way with the project reserves the right to charge City or Consultant for the cost of additional insurance coverage required by this agreement. Any such provisions are to be deleted with reference to City. It is not the intent of City to reimburse any third party for the cost of complying with these requirements. There shall be no recourse against City for payment of premiums or other amounts with respect thereto.

8.2.21.
