

FINAL CONSTRUCTION UPDATE PEDESTRIAN CROSSWALK SIGNALS ON SANTA MONICA BLVD

November 9, 2017

SCE has energized the meter services this week for the four intersections. Next week the contractor will be placing all intersection in service.

Next Week:

- **Lane Closures:** The contractor will have periodic lane closures in the immediate work areas between the hours of 9:00 AM and 4:00 PM.
- **Monday:** No scheduled work.
- **Tuesday:** The contractor will switch the Westbourne Dr. intersection signal gear heads on and implement the new intersection phasing. This will require placing the intersection on red flash between the hours of 9:00 AM to 4:00 PM.
- **Wednesday:** The contractor will energize the Palm Ave. and Hancock Ave. intersections, test the functionality and place them into service. The contractor will also complete all remaining signing and striping.
- **Thursday:** The contractor will energize the Westmount Dr. intersections, test the functionality and place it into service.
- **Friday:** The contractor will energize the West Knoll Dr. intersections, test the functionality and place it into service.

- **Parking:** To accommodate the construction, parking meters in the immediate work area may be signed with Temporary No Parking. Posted 24 hours in advance.
- **Crosswalk Closure:** The crosswalk at Santa Monica Blvd. and Palm Ave. will be reopened on Wednesday.

Questions and Concerns:

Questions and concerns that can be resolved in the field shall be directed to **Javier Barrientos** at **(818) 629-3500** or **Hany Demitri** of the City of West Hollywood's Public Works Department at **323-848-6507**.
