

## SUBSURFACE DRAINAGE COLLECTION SYSTEM DECLARATION FORM

**This form shall be completed and submitted with the building permit application and plumbing permit application.**

**This form is required prior to the issuance of permit.**

Project Site Address: \_\_\_\_\_

Building Permit Application Number: \_\_\_\_\_

Plumbing Permit Application Number: \_\_\_\_\_

### **Declaration**

This project involves the proposed construction of a building structure, inclusive of a subterranean portion extending into the ground. I am aware that the nature of groundwater is difficult to predict and often changes dynamically over time. I certify that I have designed this proposed development to not include any subsurface drainage collection system. The building permit application's and any associated plumbing permit application's plans do not include a subsurface drainage collection system, and none will be added at any time in the future. The storm drainage collection system for the proposed development shall only collect and discharge storm water from the surface of the parcel, and it shall not collect and discharge any subsurface drainage.
